PROFESSIONAL PROFILE

B.Tech in Computer Science and Engineering (2026) graduate and MERN Stack Developer Intern with hands-on experience building responsive, user-friendly web applications using React.js, JavaScript, Node.js, Express.js, MongoDB and Mongoose. Experienced with REST APIs, reusable UI components, Git/GitHub, Vite and API integration. Seeking Frontend or MERN Stack Developer opportunities where I can contribute to real-world products and continue strengthening full-stack development skills.

WORK EXPERIENCE

MERN Stack Developer Intern — AUG 2026 - PRESENT

Techno Derivation Pvt Ltd, Jaipur | On-site

- Developed responsive web interfaces using HTML, CSS, JavaScript and React.js, focusing on reusable components and clean user experience.
- Worked with Node.js and Express.js for backend development and integrated REST APIs with frontend applications.
- Used MongoDB and Mongoose for data modeling, CRUD operations and application data management.
- Used Git and GitHub for version control and collaborated on real-world web development tasks.

PROJECTS

E-Commerce Website — GitHub

React.js | Vite | React Router | JavaScript | CSS

- Built a responsive e-commerce interface with reusable React components, category navigation, product search and client-side routing.
- Structured the application with React Router and Vite and deployed the production build using GitHub Pages.

TaskFlow - Task Management App — GitHub

React.js | Vite | React Toastify | JavaScript

- Developed task add, edit, delete, complete, search and filter workflows using reusable React components.
- Added localStorage persistence and React Toastify feedback to improve usability across responsive screen sizes.

Personal Finance Dashboard — Live Demo

React.js | Vite | Recharts | JavaScript

- Created an expense-tracking dashboard with category-wise spending, totals, search/filtering and interactive Recharts visualizations.
- Used localStorage for persistent data and added monthly analytics to help users review spending patterns.

CORE COMPETENCIES

- Responsive Web Design
- Reusable React Components
- REST API Integration
- CRUD Operations
- MongoDB / Mongoose
- API Integration
- Git / GitHub Workflow
- Vite / GitHub Pages

ADDITIONAL SKILLS

- WordPress
- React Router
- Recharts
- Postman / API Testing
- SEO Basics
- Client-Side Routing
- Dashboard Visualization
- Responsive UI Design

PROFESSIONAL INTERESTS

Frontend Development | MERN Stack Development | Building Real-World Projects
